

Outsourcing Payroll Administration

Worry-free payroll, every time.

Progress **smarter** together

Salure

“Payroll processing is a specialized profession. You need professionals with the right expertise for that.”

– Anneke Staal, Head of HR at Museum Boijmans van Beuningen Rotterdam

Smarter payroll for Museum Boijmans van Beuningen

Museum Boijmans Van Beuningen has optimized its HR and payroll administration with Salure. Through the implementation of AFAS and Salure's support, administrative processes have been made more efficient. This resulted in a flexible and future-proof HR environment, in line with the organization's growth and changes.

Outsourcing in a tight labor market

HR is more than paperwork, but admin eats up valuable time. Meanwhile, legislation is becoming increasingly complex. Every mistake costs money and trust – a payroll error can amount to 1% to 8% of total payroll costs, and fixing it costs an average of €250 per error.

Since the COVID crisis, demand for HR and payroll expertise has increased by 64%. Teams are facing growing workloads, while experienced professionals are in short supply. Every month you keep struggling through it yourself costs you not only money, but also the trust of your employees.

By outsourcing your payroll administration, you gain specialized expertise and additional capacity. Features like a “four-eyes principle” and ISAE-certified controls ensure error-free administration—bringing peace of mind to your department.

Outsourcing: a smart choice

Do you want certainty, convenience, and expertise in your payroll administration? Outsourcing allows you to get the best out of your payroll. No more worries about regulations, no dependence on a small team—just an efficient and reliable solution.

Benefits of outsourcing:

Continuity – Always a dedicated contact person and a backup.

Specialized knowledge – Experts in laws and regulations.

Efficiency – Benefit from double checks for error-free processing.

Why choose Salure?

What makes us different?

1. Expertise and experience

With over 15 years of experience as an AFAS partner, we combine system knowledge with payroll expertise. Thanks to the Salure Academy, our specialists stay up to date, ensuring the best solutions.

2. Security

We adhere to the highest quality standards: ISAE 3402 Type 1 & 2 and ISO 27001. Our four-eyes principle prevents errors and provides an extra layer of control.

3. Continuity

You get both a primary and secondary contact person, ensuring continuous support from someone familiar with your organization.

Choosing Salure means choosing a partner that genuinely helps your organization move forward. Together, we create a future-proof payroll. Let's progress smarter!

At Salure, we go beyond just payroll administration. We combine in-depth expertise with an innovative approach, ensuring that you benefit from certainty, efficiency, and continuity.

“

We do what we do because we want to help HR managers focus on people again, instead of getting stuck in admin work. That's what makes our work meaningful.” – Albert Donker, Operations Manager at Salure

The driving force behind happy employees

Payroll is about more than numbers. At Salure, we see payroll as the driving force behind satisfied and engaged employees. By combining innovative technology with personal attention and deep expertise, we turn payroll from an administrative burden into a strategic tool for becoming an attractive employer.

How does outsourcing work?

Would you like to ensure your payroll administration runs smoothly? At Salure, we follow a streamlined 5-step process, ensuring maximum efficiency and minimal risks.

1. Setup & planning

We establish a Service Level Agreement (SLA) with clear task division and an annual calendar based on best practices.

2. Checks

Using smart software, we conduct detailed audits, such as balance register reviews, to identify anomalies and detect errors.

3. Pre-run & processing

After consultation, we process changes and conduct another review, ensuring an error-free outcome.

4. Payment & tax filing

We facilitate payments via a bank connection and handle tax declarations.

5. Evaluation & optimization

Regular evaluations ensure continuous improvement and up-to-date processes.

The result? A reliable and efficient payroll administration without errors, unexpected costs, or compliance risks, giving you more time for what truly matters.

Why Essent partners with Salure

“It’s great that with Salure, everything is managed under one roof.”

– Frank Vos, HR Operations Coordinator at Essent

essent

Essent, a leading energy provider in the Netherlands, optimized its HR and payroll processes with Salure. By integrating systems and outsourcing functional application management and payroll, Essent achieved significant efficiency improvements. This resulted in better oversight, faster workflows, and increased employee satisfaction.

Pay only for what you need

At Salure, we understand that no organization is the same. That's why we use a tiered pricing model tailored to your needs:

1. Save as you grow

The more payroll transactions, the lower the cost per transaction. Growing organizations benefit from economies of scale.

2. No waste

Fixed pricing often leads to unnecessary costs. With us, you pay only for what you need—no more, no less..

3. Transparency

Our tiered pricing provides clear insight into costs and services. No hidden fees, just clarity.

4. Flexibility

Whether your organization is expanding or downsizing, our model adapts to your needs, keeping costs under control.

Would you like to know what this means for your organization? Request a quote today and discover how you can save costs with a flexible and transparent pricing model.

Investing in the future

A reliable payroll administration is more than just an expense. It is an investment that pays off in efficiency, security, and risk management.

What makes a strong administration valuable?

- **Better controls**

Our double-checks and strict compliance measures ensure an error-free payroll process. No unnecessary corrections, always clear insights.

- **Lower risks**

We ensure your payroll administration complies with all laws and regulations, avoiding fines and correction costs. Additionally, outsourcing prevents dependency on a small internal team, reducing costs from unexpected staff turnover.

- **Efficiency**

Save time and resources by outsourcing payroll to experts. We automate processes and minimize manual handling, so you can focus on your core business.

- **High quality service**

Our specialists stay up to date with the latest legislation and technology. This ensures continuous improvement and a future-proof payroll.

3 frequently asked questions

We understand that you want to make a well-informed decision. That's why we've compiled the most frequently asked questions for you.

1 Why outsource instead of handling payroll in-house?

Outsourcing saves time, reduces risks, and ensures continuity. Internal staff can focus on strategic HR tasks while specialists handle payroll processing and compliance. This prevents fines, legal costs, and reputational damage. Additionally, you benefit from efficient processes and economies of scale—paying only for what you need. Outsourcing also ensures payroll continues even if employees leave or are absent.

2 Why does Salure use a tiered pricing model?

A tiered model ensures transparency and flexibility, so you only pay for what you use. You benefit from cost savings as you grow while avoiding unnecessary expenses when processing fewer payrolls.

3 What makes Salure worth the investment?

At Salure, you gain certainty, efficiency, and quality. Our certified approach (ISAE 3402 Type 1 & 2, ISO 27001) guarantees error-free payroll processing with minimal risks. Our double-checks and four-eyes principle prevent costly mistakes and fines. Plus, our specialists stay up-to-date through the Salure Academy, ensuring you always benefit from the latest developments.

In short: with Salure, you save time, reduce costs, and improve the quality of your payroll.

A photograph of two men in a modern office environment. One man, wearing a light-colored suit and glasses, is seated on a blue upholstered chair, smiling while working on a laptop. Another man, wearing a white shirt and a beard, is seated across from him, also smiling and gesturing with his hands. They are in a glass-walled office space with blue acoustic panels on the wall. The overall atmosphere is professional and collaborative.
